Ultimate Mobile Drive-In Graduation Guide

Ultimate Drive-In Graduation Ideas

-  **Pre-Recorded Speeches, Pictures, & Ceremony on Screen**
Have faculty, student, and guest speakers pre-record their speeches. Combine speeches with photos of graduates and video edit together on DVD to play for graduates and their families in parked vehicles.
-  **Senior Auto-Parade**
Seniors dress up their vehicles and in turn drive in front of the screen, symbolizing their “walk across the stage.” Their picture and accomplishments and college destination can be displayed on screen, while the audience honks to show applause.
-  **Customized Videos & Submissions from Graduates**
Ask graduates to send videos (recommended 20-30 seconds) and/or photos to assemble into a presentation that can play in place of the “walk across the stage”. Videos could play alongside the yearbook photo or other photo of graduate.
-  **Hold a Live Ceremony Remotely From Vehicles**
With Zoom and other remote meeting software, your graduates and speakers can be LIVE on screen from their vehicles, for their virtual “walk” across the stage! As with many remote class-rooms, a faculty member can moderate the graduates within the virtual room, and display each graduate in turn across our BIG screen.
-  **Bring the In-Person Live Ceremony to the Big Screen**
Whether your school has a production team or will use a mobile device we have microphones and means to assist your staff in displaying speakers and graduates in real-time, for all in their vehicles to watch safely.
-  **Senior Showcase**
Display graduates on our big LED screens in town for all to drive-by and see.
